

1. Title	Conduct site survey and quality control		
2. Code	EMCUQM404A		
3. Range	Investigate the characteristics and limitations of the work site and conduct quality control and monitoring of engineering projects.		
4. Level	4		
5. Credit	3		
6. Competency	<div><div><div><div><div></div><div>6.1</div><div>Quality control and monitoring requirements on work site environment</div></div><div><div></div><div>6.2</div><div>Conduct site survey and clear obstacles so as to implement quality control of electrical and mechanical installation project</div></div></div><div><div><div>◆</div><div>Master the progress of design, installation, operation, maintenance and repair, inspection, commissioning and testing necessary for the engineering projects, and understand the quality control and monitoring requirements on work site environment</div></div><div><div></div><div>◆</div><div>Investigate and analyze the characteristics and limitations of the work site, and point out potential problems in and obstacles to the electrical and mechanical design, installation, operation, maintenance and repair, inspection, commissioning and testing of the projects there so as to ensure:<ul style="list-style-type: none">The effective implementation of all engineering projectsThe effective implementation of quality control schemeThe effective operation of the flow chart of quality control procedures</div></div><div><div></div><div>◆</div><div>Suggest solutions to clear the obstacles so as to implement quality control of the electrical and mechanical installation projects</div></div></div></div></div>		
7. Assessment Criteria	The integrated outcome requirement of this unit of competency is: <div><div>(i)</div><div>Capable to demonstrate how to conduct site survey and clear obstacles in order to assist in quality control of the electrical and mechanical installation projects.</div></div>		
8. Remarks	The credit value of this unit of competency is set on the presumption that the person already possesses basic knowledge of quality management.
